

Family

Task 1. Work individually. Remember your family. **List** the family members, **label** who your father, mother, sister, brother, grandfather, grandmother are. Make use of the space below, where you can make notes.

Use any dictionary and find out who the following members of the family are:

sibling:

offspring:

Use new words to explain them within your family, e.g. John is my sibling. There are three offsprings of my grandparents.

Task 2. **Illustrate** your family tree. You can do it as a drawing or you can use some internet help, e.g. <https://www.smartdraw.com/family-tree/family-tree-template.htm>. Include three generations. Don't forget to include photos and a suitable title.

Work with a partner. **Describe** your family with the help of the family tree, **identify** the members of your family. When you have finished your discussion, think about your work and **mark it with the help of the rubric** your teacher will give you.

Task 3. Exchange your family tree with a classmate and **mark his/her work with the help of the rubric** your teacher will give you. **Compare** it with your family tree.

Task 4. Work individually. **Write** a paragraph about your family. Include your family members, their description, jobs, hobbies. Describe relationships and say what you like about your family. Hand in your writing to another classmate and **mark the rubric**. When you finish, **discuss with your friend**. What did you do well? What do you need to improve?
