## Animals

We're animals, but we're different from other animals. We can hold things. We haven't got tails. We've got short noses. We can speak. We've got small mouths and weak teeth. We've got hands and we cook our food. We don't need strong teeth. We've got large hands. We've got hair on our head, but we haven't got a lot of hair on our arms, legs and body. We wear clothes. We stand on two legs and we've got

large feet. Our legs're long, but we aren't very fast. Some of animals that we know are for example: dog, cat, snake, spider, elephant, giraffe, parrot, turtle, fish, owl, lion, horse, hamster, guinea pig.

The Mary Rose stayed at the bottom of the sea for over four hundred years. Then in 1966 a diver called Alexander McKee found the wreck. Engineers made a special cradle for the ship and in 1982 they began to lift it. It was on television.

Good morning. It's nine o'clock on Sunday 10<sup>th</sup> October. We're in Portsmouth to see the Mary Rose. It's a beautiful day. The sun's shining. People're standing on the shore.
