ÚVOD

Vyučovanie cudzieho jazyka je pevnou súčasťou školských osnov. Na základných školách s vyučovacím jazykom maďarským (VJM) sa cudzí jazyk povinne vyučuje od 3. ročníka. Žiaci sa cudzí jazyk učia popri svojom materinskom (maďarskom) jazyku a štátnom (slovenskom) jazyku. Všeobecným cieľom je zabezpečiť dosiahnutie komunikačnej úrovne B1/B2 podľa Spoločného európskeho referenčného rámca (SERR) pre jazyky v prvom cudzom jazyku. Kľúčovými kompetenciami v oblasti jazykovej prípravy sú: porozumieť, hovoriť a písať. Učebnice a iné publikácie pre vyučovanie anglického jazyka dostupné na trhu sú výborné, avšak pre potreby krúžkovej činnosti v rámci MRK často náročné, resp. vychádzajú len v slovenskej jazykovej mutácii.

Cieľom vytvorenia tohto učebného zdroja je poskytnúť pracovné listy pre potreby základných škôl s VJM, ktoré sú zamerané na precvičovanie slovnej zásoby jednoduchou, hravou formou. Pracovné listy sú rozdelené do tematických okruhov, slovná zásoba vychádza z požiadaviek SERR na úrovni A1, základná slovná zásoba je zosumarizovaná s maďarským prekladom.

Pracovné listy poslúžia na precvičovanie a upevnenie poznatkov z anglického jazyka, môžu sa používať na vyučovacej hodine ako doplnkový materiál, ako aj pre potreby krúžkovej činnosti. Pracovné listy sú koncipované tak, aby s nimi žiaci mohli pracovať samostatne, len pri niektorých cvičeniach sa vyžaduje pomoc učiteľa.

1. Read the text about the American revolution and answer the questions. Olvasd el a szöveget az amerikai forradalomról, majd karikázd be a helyes válaszokat.

The first battle of the American Revolution occurred at Lexington, Massachusetts in 1775. The American colonists were angry about numerous taxes issued by the British king. In 1776, the colonists issued the Declaration of Independence, a document written by Thomas Jefferson that outlined America's intention to become a new country separate from England. England wanted to maintain control of America, and vowed to fight the colonists. The war lasted eight long years. The Americans won many important battles such as those at Saratoga and Yorktown. Many American heroes emerged such as George Washington, Thomas Jefferson and Benjamin Franklin. Finally, in 1781, the British surrendered at Yorktown, Virginia and a new nation was born two years later.

1. Look at these definitions of words that appear in the text about Carston. Are these true or not? Some words have more than one meaning. Olvasd el a szöveget, figyeld a kifejezéseket. Némelyeknek több jelentése is lehet.

Carston is a very historic town in the north of England. The Romans arrived in Carston two thousand years ago and they stayed for three hundred years. Even today, you can still see many signs of the Romans. There is still the large city wall that they built with its three gates: Main, East and South. The wall is not complete but you can still see the three gates. Many tourists comes to Carston to see the Roman ruins.

Carston is famous for its history, but it's also a modern town with 74,000 people. They work in many types of jobs. The most common occupation is tourism, but there are also many people who work in the local car factory. The factory makes sports cars that are exported all over the world. There is another factory in Carston and in this factory, four hundred people work and they make microwave ovens.

Carston also has a small football team which is not very successful and a rugby team that is more successful. The rugby team won the regional championship three years ago and one of their players, Danny Biggs, played three times for England. He still lives in Carston. He wants to return to play for Carston rugby team before he retires.

Another famous Carston resident is the Hollywood movie star, Jason John Lee. He left Carston when he was 15 years old, but returns every summer to visit his family. Jason's school, Carston Middle School, now has a small theatre named after Jason. Jason gave his school some money to build the theatre. Maybe in the future, there will be other famous actors from Carston!

CRICKETS- TŰCSKÖK

1. Read the passage and answer the questions. Karikázd be a jó választ.

Description: The adult House Cricket is about two centimeters in length. The body is usually light brown with black markings about the head and thorax. The female is told from the male by the presence of an ovipositor, a long extension attached to the end of the abdomen, used for depositing eggs in the soil. House crickets have conspicuous jumping legs and have two pairs of wings, of which, only the back pair are used for flight.

Habitat: House Crickets can be found in a variety of habitats including woodlands, suburbs, urban areas, buildings, ducts, siding, restaurants and anywhere else there happens to be a food supply and warm air. Although many crickets die off in the colder months, those that manage to find their way indoors can stay alive year round.

Reproduction: Crickets reach sexual maturity between eight and twelve weeks after birth. Males attract mates by rubbing their wings together to produce a noise sometimes referred to as "chirping". Technically, this process is called stridulation. Interestingly enough, the rate in which a cricket "chirps" is determined by the temperature outside. When it is warmer, crickets chirp faster. Scientists can actually tell the exact outdoor temperature by timing the rate of cricket "chirpings". After the male mates with female, the female will lay between 50 and 100 eggs in the ground or another soft surface. The eggs hatch in about two weeks.

Life Cycle: Incomplete Metamorphosis: egg -> nymph -> adult

Diet: House Crickets will eat just about anything including soft plant matter, insects, young crickets, and decomposing matter.

1. Which of the following shows the cricket's correct life cycle? A. nymph -> adult -> egg

B. egg -> nymph -> adult

C. egg -> adult -> nymph

D. adult -> nymph -> egg

2. What organ is used for depositing eggs into the soil?

A. Head

B. Ovipositor

C. Thorax

3. Which of the following is probably NOT part of a cricket's typical diet? A. Other Crickets

B. Plant material

- C. Insects
- D. Wood

4. How long does it take cricket eggs to hatch?
- A. 14 days
 - B. 4 days
 - C. 21 days
 - D. 7 days

5. Where would you probably NOT find a cricket?
- A. Restaurant
 - B. Ocean
 - C. Woodlands
 - D. House

6. Which of the following is NOT true?
- A. Some crickets survive during the cold months.
 - B. Crickets can reproduce after 12 weeks.
 - C. Crickets have two sets of wings.
 - D. Males and females have ovipositors

7. In which of the following months would it be unlikely to see a cricket outdoors?

- A. January
- B. May
- C. July
- D. September

8. What determines how fast a cricket "chirps"?
- A. the number of females around
 - B. temperature
 - C. the number of predators around
 - D. food supply

9. Which of the following do you think is about the size of a cricket (2 centimeters)?

- A. A hot dog
- B. A match
- C. A flea
- D. A dragonfly

10. What do male crickets rub together to make their "chirping" noise?
- A. wings
 - B. antennae
 - C. spiracles

HAROLD OFFICE- HAROLD IRODA

Read about the office and then answer the multiple choice questions. Choose either True, False or Not Stated if the information is not included in the reading.

This is where I work. The name of my company is Harold Publishing. I started working here six years ago. I spend a lot of time on the phone, speaking to our clients, especially in Japan and Saudi Arabia. It's lucky that they all speak very good English because I don't speak Japanese or Arabic! I also do some work in the advertising department of the company, helping to make adverts for radio stations around the world. That's my favorite part of the job.

It's not a big office and it's not very modern either, but we really like working here. There's only one computer and there's a lot of papers and files. It's like an office from ten years ago really. The walls are gray, although they should be white. They are dirty and we need to paint them again.

In my part of the office, there's me and then there are three others, Lucy, Helen and Paul. Paul is the new one. He arrived only three months ago. He was a lawyer before, then he decided he didn't want to be a lawyer any more, so he changed his job completely. I imagine he earns a lot less money with us! Helen arrived at Marshall Publishing only a month or two after me. She's my best friend in the office because we helped each other a lot when we were both new. Lucy is the grandmother of the office. She started working here almost twelve years ago, when the company started. Everybody comes to her when there's a problem, when you have something you don't understand. She's a grandmother in real life too: she has 6 grandchildren!

The manager of the office is Liam. He's 39 years old and worked for a large publishers in London before taking this job. I think at the beginning, he felt a little strange, like an outsider. Now, he's one of the family. He's the best boss you could have!

MIXED LETTER- ÖSSZEKEVERT LEVÉL

The letter is from Mike to Linda. Put the correct number into each of the boxes in the four missing parts. There is 1 extra paragraph you don't need. A levél össze van keverve. Rakd sorba a levelet, a hiányzó sorok számát írd a jó helyre. 1 bekezdés nem kell sehová.

1. Clive and his wife left us once we got to Germany by train. They went up into Denmark but we continued to Munich. Wow - what a great city. I bought you a surprise gift there. I hope you like it.
2. As I told you yesterday, I am in Rome today. Tomorrow we are getting the train down into the south of the country and then the ship across to Greece.
3. I paid nearly \$200 for it but it looks magnificent and is made of real leather.
4. OK, that's enough from me for now. I want to post this letter now so you get it by the weekend.
5. At least when we got to Paris, the sun was shining! We only stayed for one afternoon in the French capital because my friends really wanted to visit Euro Disney which is to the east of Paris.
6. I sent her a postcard last night. It had the Eiffel Tower on it, which she has always wanted to visit. Now she can look at it on a postcard every day!

Dear Linda,

---How are things with you. It was great talking to you yesterday by phone.....
---I can't wait to arrive in Athens to see all that history. Let me tell you something about where we have visited so far. I know you want to come here on vacation too one day!.....
---We started in England and we spent two days in London and another day in Canterbury. We saw a lot of great history and the only bad thing was the weather - it rained for the whole time we were there. Can you believe it?.....
---Well, I have to say I prefer the American Disneyland. But we met some nice people from Canada and spent two great days with them. One of them, Clive, is going to your university next year. How's that for a coincidence!.....
----After that, we went south into Switzerland. It was very expensive and we couldn't stay as long as we wanted to, so that's why we're in Italy now!.....

See you soon,

Mike

RAINBOWS- SZIVÁRVÁNYOK

Rainbows are often seen when the sun comes out after or during a rainstorm. Rainbows are caused when sunlight shines through drops of water in the sky at specific angles. When white sunlight enters a raindrop, it exits the raindrop a different color. When light exits lots of different raindrops at different angles, it produces the red, orange, yellow, green, blue, indigo, and violet that you see in a rainbow. Together, these colors are known as the spectrum. These colors can sometimes be seen in waterfalls and fountains as well.

Did you know that there are double rainbows? In a double rainbow, light reflects twice inside water droplets and forms two arcs. In most double rainbows, the colors of the top arc are opposite from those in the bottom arc. In other words, the order of colors starts with purple on top and ends with the red on bottom. In addition, rainbows sometimes appear as white arcs at night. These rainbows are called moonbows and are so rare that very few people will ever see one. Moonbows are caused by moonlight (rather than sunlight) shining through drops of water.

Rainbows are often seen _____ before a rainstorm

after a rainstorm

after the sun sets at night

when it snows

Rainbows are produced when _____ light exits many raindrops at different angles.

the spectrum causes a rainstorm.

the sun comes out after a storm.

the sun causes a rainstorm.

What color is NOT in a rainbow?

pink

orange

yellow

indigo

Which IS NOT true?

Spectrum colors sometimes appear in fountains and waterfalls.

Moonbows are caused by moonlight.

Rainbows are usually seen after or during a storm.

Double rainbows are two rainbows that are exactly the same.

What question is answered in the last paragraph?

- a, Why do waterfalls produce rainbow-like spectrums? / b. How long do rainbows last?
 c. How do double rainbows form? | d. What colors appear in a rainbow?

What would be a good title for this passage? a. Moonbows! / b. The History of Rainbows

c. Differences Between Normal Rainbows and Double Rainbows / d. The Basics About Rainbows

The author describes moonbows as "so rare that very few people will ever see one." Which of the following might also be described as very rare?

A pink diamond / A ruler / A squirrel / A fireman

What color is a moonbow? white / yellow / the passage doesn't say / green

T-REX DINOSAURUS

The Tyrannosaurus Rex, also known as T-Rex, was one of the largest land predators to have ever lived. The T-rex could grow to 40 feet in length (a little longer than a school bus) and could stand 13 feet tall at the hips (about three feet taller than a basketball hoop). It lived in what is now western North America and may have even been partly covered in feathers.

The Tyrannosaurus Rex was a fearsome predator with strong jaws and up to 60 teeth. Some of these teeth could grow to be almost a foot long. The T-Rex was a strict carnivore (meat-eater) and hunted other dinosaurs. Scientists aren't sure how fast the T-Rex could run, or, even if it could run at all.

In 1990, a fossil hunter found the most complete skeleton of a Tyrannosaurus Rex ever found! It was sold to a museum for \$8 million dollars, the highest amount ever paid for dinosaur fossils.

1. Compared to a basketball hoop, the Tyrannosaurus Rex was shorter/ longer / taller/ lighter
2. Compared to a school bus, the Tyrannosaurus Rex was Taller/longer/shorter/stronger
3. Which of the following might also be described as a fearsome hunter?

a sparrow/ your pet hermit crab / a tiger / a baby seal

4. What are scientists not sure of? If the tyrannosaurus rex ate plants./ If the tyrannosaurus rex could run./If the tyrannosaurus rex had 60 teeth./Where the tyrannosaurus rex lived.

5. Which is NOT true about the tyrannosaurus rex?

It ate other dinosaurs./Some of its teeth were a foot long./ A skeleton sold for \$8 million dollars./Compared to other land predators, it was actually small.

6. Which of the paragraphs discusses the diet of the T-Rex? First./ Second /Third./None of them.

7. The author seems to think the T-Rex skeleton was __expensive /fake /boring/ broken

8. Which of the following statements indicates the author is not sure about a fact?

The T-Rex lived in what is now western North America./

The T-Rex was a carnivore.

The T-Rex may have been partly covered by feathers.

The T-rex could grow to 13 feet tall at the hips.

BENJAMIN FRANKLIN

Benjamin Franklin was one of the most important Americans in history. In the early part of his life, Franklin was a business person and inventor. He ran the Pennsylvania Gazette (newspaper) and also published Poor Richard's Almanac. Poor Richard's Almanac was very popular because it made predictions about the future and had wise sayings. Ben Franklin also invented the Franklin stove, lightning rod, bifocals (eyeglasses), and started America's first library. He is probably best known for his kite experiment which proved electricity could be harnessed from lightning.

In the later part of his life, Franklin became interested in politics. He spent many years in England before coming back to America. In 1776, Franklin helped Thomas Jefferson write the Declaration of Independence. Two years later, he went to France and convinced the French to help America in the war against England. After the war, Franklin joined the Continental Congress and signed the Constitution. He died in 1790. Today, Ben Franklin is honored on the \$100 dollar bill. His name is honored on highways, schools, and businesses across America.

1. Which of the following is something invented by Ben Franklin?

Headphones , Electricity, Bifocals, Kites

2. Which is something that may have been found in Poor Richard's Alamanac?

Directions for operating a soda machine.

The score of a football game.

"A penny saved is a penny earned".

People's phone numbers.

3. Ben Franklin started America's first _____.

4. Ben Franklin proved electricity could be harnessed from _____.

5. In the later part of his life, Franklin became interested in _____ .

6. Which of the following did Ben Franklin not do?

a. Become president. b. Sign the Constitution.

c. Help with the Declaration of Independence. d. Travel to England.

c. Franklin signs the Constitution. d. Franklin went to England.

8. Today, Ben Franklin is honored on the _____ dollar bill.

AN AFRICAN SLAVE- AFRIKAI RABSZOLGA

Ann Arnold was born a slave. In the 1800s, slaves were African-American people who were forced to work. They were “owned” by their masters and had no rights. They could be bought and sold, and ripped away from their families forever. Ann Arnold wanted a better life. She ran away from her “owners” on what came to be known as the Underground Railroad. The Underground Railroad was not really underground and it was not really a railroad. It was a series of long paths through the woods that lead to freedom for slaves in the Northern United States. It was very dangerous, and very long, but Harriet Tubman made it to freedom!

After Ann became free, she helped her family members and other slaves to freedom along the Underground Railroad. Southern slave owners were very angry with Ann, and offered large rewards for anyone who could capture her. Ann, however, was never captured. In all, she helped over 300 slaves to freedom in the North. Former slaves called her “Moses.” That is one reason why Ann will be known forever as the Conductor of the Underground Railroad.

1. Which of the following best described Ann Arnold?

A woman who helped as many as 300 slaves to freedom on the Underground Railroad

A woman who was scared of trying to become free

A woman who was against slavery

A woman who was captured trying to bring others to freedom

2. Which of the following is NOT true?

Ann Arnold ran away to get a better life

Southern slave owners were angry with Harriet

Ann Arnold owned slaves

Ann Arnold would never be captured

3. Slaves...

were not forced to work

had a lot of rights

had no rights

were never sold

4. What did Ann Arnold do after she became free?

She made people call her "Moses"

She started helping other slaves to freedom

She got a job

She built the Underground Railroad

5, The Underground Railroad was...

underground

in the air

a train

in the woods

6, How did Southern slave owners feel about Ann Arnold?

They liked her

They thought she should be free

They didn't really care

They wanted her captured

7, Which of the following questions is NOT answered in the passage?

Was Harriet Tubman a slave?

Did Harriet help other slaves to freedom?

How old was Harriet when she ran away?

What was the Underground Railroad?

8, Which of the following would probably NOT be a title for this passage?

The Life and Times of Ann Arnold

The Life of a Southern Slave Owner

Ann Arnold and the Underground Railroad

Ann Arnold: The Conductor
